JOURNAL OF RESEARCH IN SCIENCE TEACHING

Volume 6, 1968 – 1969

ISSUE 1, MARCH

Turning Points 1
Cognitive Style and Science Achievement: T. W. Field and A. J. Cropley 2
Three Levels of Abstraction of the Concept of Equilibrium and Its Use as an Advance Organizer: Milton O. Pella and Henry J. Triezenberg 11
Two Paradigms for the Training of Science Teachers Using Videotape Technology and Simulated Conditions: John J. Koran, Jr.. 22
Performance in Conceptualizing: Relationship between Conceptual Framework and Skills of Inquiry: Richard Mascolo..... 29
The Development of Modern Space-Time Concepts in the Elementary School: Laurence J. Victor..... 36
Research Reports
Pre- and Post-Sputnik Background of College Freshmen: Haym Kruglak 42
Physics Enrollments and Grading Practices: Robert G. Bridgham and Wayne W. Welch..... 44
The Attainment of Understandings About the Scientific Enterprise, Scientists, and the Aims and Methods of Science by Students in a College Science Course: Katherine Maurice Jones... 47
The "New" Science Teachers Are Asking More and Better Questions: John H. Wilson..... 49
Correlates of Courses Satisfaction in High School Physics: Wayne W. Welch..... 54
Physics Teacher Characteristics and Student Learning: Arthur I. Rothman, Wayne W. Welch, and Herbert J. Walberg..... 59
Effectiveness and Effects of ESSP Astronomy Materials—An Illustrative Study of Evaluation in a Curriculum Development Project: Leopold E. Klopfer..... 64
Effects of the Laboratory and Demonstration Methods upon the Outcomes of Instruction in Secondary Biology: Robert E. Yager, Harold B. Engen, and Bill C. F. Snider..... 76
The Teaching of Science and the History of Science: Leopold E. Klopfer 87

Comments on the Teaching of Science and the History of Science: Arnold M. Lahti 96
Philosophy of Science: Implications for Teacher Education: James T. Robinson 99
Nature of Science: Panacea or Pandora's Box: Marshall D. Herron 105
Philosophy of Science and the Science Curriculum: F. Michael Connelly 108
Philosophy of Science: Implications for Curriculum—A Reaction: J. W. George Ivany 114
Book Review 116

ISSUE 2, JUNE

Clarity in Reporting Research I 117
Classification, Seriation, and Learning of Electrostatics: Robert G. Bridgham 118
An Experimental Investigation of the Effects of Structured Science Experiences on Curiosity Among Fourth Grade Children: Jerry A. Jenkins 128
Expository-Deductive Versus Discovery-Inductive Programming of Physcial Science Principles: R. Thomas Tanner 136
Categories of Ability in Elementary Science: D. G. Lewis 143
An Auto-Paced Teaching Process in Physical Science for Elementary Teacher Preparation: A Pilot Report: Francis T. Siemankowski 150
Research Reports
An Analysis between Techniques of Evaluation Used by Experienced Elementary School Teachers and Student Achievement: Victor A. Perkes 157
Science Vocabulary and Readability Level: Raymond J. O'Toole and John P. Bedford 161
A Multivariate Approach; Evaluating Major Objectives in Science Education: Ashley G. Morgan, Jr. and Oscar J. Brouillette 163
Organization and Evaluation of an In-Service Program in the History of Science: John F. Lavach 166
The Effect of Feedback of Learner's Certainty of Response and Attitude Toward Instruction in a Computer-Assisted Instruction Program for Teaching Science Concepts: David Alan Gilman 171
An Experiment in Visual Communication: Francis M. Dwyer, Jr. ... 185
Books Received: Sidney Rosen 196
Book Reviews 197

ISSUE 3, SEPTEMBER

Clarity in Reporting Research II 201
Characteristics of Elementary Teachers Related to Attitudes toward Science: Patricia M. Schwirian 203

The Effects of Programmed Instruction in a College Physical Science Course for Nonscience Students: George Moriber..... 214
The Relative Effects of Classroom Instruction and Subsequent Observational Learning on the Acquisition of Questioning Behavior by Pre-Science Elementary Science Teachers: John J. Koran, Jr. 217
An Experimental Comparison of Urban Children with Suburban Children on Eight Tasks of Basic Skills: Kenneth D. George and Maureen A. Dietz..... 224
Principle Learning as a Function of Instruction on Excluding Irrelevant Variables: Henry Cole and Ronald Raven..... 234
Some Characteristics of High School Physics Students: circa 1968: Wayne W. Welch..... 242
Visual Resemblance Sorting Abilities Among First Grade Pupils: Lawrence F. Lowery and Leslie R. Allen..... 248
Conservation Aspects of the Concept of Time in Primary School Children: Frank B. Murray..... 257
An Interdisciplinary Theory of Behavior: O. Roger Anderson..... 265
The Effects of a Course in Science and Culture for Secondary School Students: George W. Cossman..... 274
A Study of Teacher-Pupil Interaction in High School Biology Classes: Part 1. The Development of a Category System: Jal S. Parakh..... 284
Books Received 293
Book Reviews 294

ISSUE 4, DECEMBER

The "New" Science and the Rational Powers: John H. Wilson and John W. Renner..... 303
Physical Sciences and Processes of Inquiry: A Critique of CHEM, CBA, and PSSC: Mary E. Diederich..... 309
A Comparative Study of the Effect of Practice with Elementary Children or with Peers in the Science Methods Course: Alan Steinbach and David P. Butts..... 316
Response to a Multi-Media System: M. Daniel Smith..... 322
The Science Preparation of Present and Prospective Elementary Teachers in Pennsylvania: Raymond J. O'Toole and Gerald Chesin 333
The Relative Effectiveness of Four Types of Laboratory Reports in Chem Study Chemistry: William Torop..... 335
Teacher Characteristics and Student Learning: Arthur I. Rothman. 340
Out of School Science Sequence for Paired Schools: Stephen H. Davidoff 349
The Construction and Evaluation of a Programed Course in Mathematics Necessary for Success in Collegiate Physical Science: Robert B. Collagan..... 358

Inner-Other Direction as the Critical Factor in Scientific Career Choice: V. R. Blake 366
Evaluation of an Achievement Test, Prediction of Grades, and Composition of Discussion Groups in College Chemistry: Nicholas A. Sieveking and Jeffrey C. Savitsky 374
The Effects of Instructional Method upon the Acquisition of Inquiry Skills: Barbara Thomas and Bill Snider 377
Erratum 387
